TOSHIBA

Enabling Compliance and Productivity in Virtual Workspaces

SECURE INFORMATION AND WORKFLOWS WITH A ZERO-COMPROMISE SOLUTION

Toshiba technology specialist Brandon Gross has been helping financial institutions and departments ensure compliance and productivity for the past 10 years, from infrastructure and operations to user experience and client facing tools. His free webinar can help you navigate the questions surrounding securely accessing internal applications as well as managing print and data transfer for remote employees.

If you have asked yourself any of the questions below, join us Wednesday, Jan. 20th for a free 40-minute webinar

- How can I ensure remote access to our internal applications and data?
- How can I securely manage print and data transfer?
- How can I maintain full compliance with my remote workforce?
